

# Avidbots® Cylindrical Brush Wear Chart

Fit for your Neo 24" or 32" Cylindrical Cleaning Head models.  
With 2 different cylindrical brush options, there is one perfect for your floor!

## Tuff Brush (Soft) - White Nylon

- ▶ Great for cleaning relatively fragile floor materials.

NEW

TIME TO REPLACE

## Tuff Brush (Medium) - Black Polypropylene

- ▶ Great for cleaning uncoated floors such as concrete and grouted tile.

NEW

TIME TO REPLACE

**How To Clean:** Extract the brushes. Remove stuck debris or anything entangled in the bristles, then rise with water.

**When To Replace:** Brushes should be replaced when bristles cannot reach the floor when the cleaning head is lowered. Alternatively, inspect brushes if Neo notifies you that brushes may be too worn.
