

THE EASY TO USE TruFill® DISPENSING SYSTEM

Take dilution dispensing off the wall with the **TruFill® Dispensing System**. TruFill® offers easy-to-use, quick-change cartridges that automatically blend concentrates with water to provide worry-free dilution. The rugged design easily attaches to buckets and auto scrubbers for simplified dilution mixing into these high-volume vessels. Using our high-quality **SC Johnson Professional®** floor care chemistries, this patented system simplifies dilution dispensing and replaces wall-mounted or other concentrate dispensing systems.

Lock cartridge into reusable dispenser head

QUICK CONNECT

Attach quick-connect hose to TruFill® dispenser head

FILL & GO

Hang on bucket or auto scrubber; turn on water source

SAFETY PRACTICES TO FOLLOW

It's good business practice to assure that your employees have read and understood the product labels and Safety Data Sheet before using this product. The label use directions and SDS contain important hazard warnings, precautionary statements and first aid procedures. This information is available on-line at www.scjp.com or by calling 800-248-7190. Wear personal protective equipment, chemical-resistant gloves and chemical splash goggles, when dispensing concentrates. Improper mixing or diluting of concentrate may damage surfaces and may result in physical harm to the user matching those of the concentrate.
